Grade 1 Reading

Student At-Home Activity Packet 2

This At-Home Activity Packet includes two parts, Section 1 and Section 2, each with 5 lessons in it. We recommend that your student complete one lesson each day.

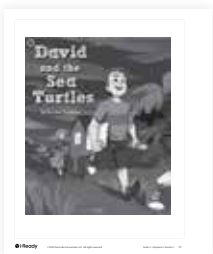

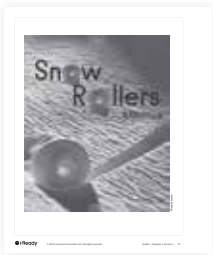

Children will need the support of an adult or older student to complete these lessons, unless they can read independently.

Encourage your student to do the best they can with this content. The most important thing is that they continue to work on their reading!

Use the questions/prompts on the Discourse Card resource to start a conversation about something the student has read. You may talk about a text the child read in one of the lessons above, or anything else the child is reading.

Encourage daily reading. And remember, reading isn't just about the books on the shelves—it's about anything around you with letters! Turn on the closed captioning feature on your TV or read catalogs that come in the mail. The backs of cereal boxes work, too, as do directions to board games!

Running out of stuff to read? **Grab some sticky notes, and label household objects, or make up new, silly names for things!** Communicating with sticky notes, instead of talking, is fun, too—start with a half hour and see if you can go all afternoon. Reading is everywhere!

Don't worry about right/wrong answers when you talk about text—the important thing is that you and your student share a reading experience and have fun!

Describing Setting

The **setting** is where and when a story takes place, or happens. Details in the story tell you about the setting.

Here are some questions you can ask about the setting of a story:

- ▶ Where does the story take place?
- ▶ When does the story take place?

Think about:

season of the year	time of day
now or long ago	day of the week

- ▶ What does the setting look like?

Understanding where and when a story happens helps you to make connections between important story details.

Lan was helping at the animal **rescue** center. The center was near a hot, huge jungle. It was where Lan's dad worked. He took care of animals that were hurt. Animals stayed at the center while they got better.

Now Lan was cleaning up. She heard a door slam. Her dad ran in. He was holding two strange animals.

“What are they?” Lan asked, with surprise.

“They are pangolins,” said her dad. “A mother and baby. The mother needs help.”

The mother pangolin’s leg was hurt. Lan’s dad wrapped its leg. The pangolin looked at Lan with bright eyes. Lan had never seen a pangolin before.

The mother pangolin's leg was better in three days. But the pangolins did not move or eat much. Their eyes were no longer bright.

"What is wrong?" Lan asked her dad.

"Pangolins do not like being inside," he said. "We will take them back to the jungle tonight. Most pangolins are awake then."

Lan and her dad waited until night came. Lan's dad carried the pangolins in a cage. They crossed a red bridge over a rushing river. "We must go deep into the jungle," her father said. "Pangolins live there."

The air felt wet and hot. Lan stopped to take a drink. Lan saw moonlight shining on the tangled vines and tall trees.

Lan and her dad kept walking. They passed a pond. “We cannot leave the pangolins here,” her dad said. “They will not be safe.”

They saw some big rocks. “The pangolins cannot live here,” Lan’s dad said. “There is nothing to eat.”

They walked more. Finally, Lan saw a fallen tree. “The pangolins could stay there,” she said. “There will be bugs for them to eat.”

“Yes,” her dad said. “And there is a stream. They will have water to drink.”

“This is the perfect spot!” Lan said. She let the pangolins out of the cage. The baby climbed on the mother’s tail. They crawled under the fallen tree together.

Lan was sad to say goodbye. But she was happy the pangolins had a home.

David wanted to go to the beach with his friends. They wanted to see the baby sea turtles come out of their eggs. David's parents said he could go.

They went to the beach when it was still dark. They waited for sunrise. David knew that the turtle eggs open when the sun comes up.

David walked up a hill made of sand. It felt soft and wet on his feet. He had paper and pens. He wanted to make a picture as he sat. Then he saw a hole in the sand. He knew there were eggs in the hole.

David could not see the water. It was too dark. But he could smell it. He could hear it. The water was loud when it hit the sand.

The sun came up a little. David could see the water. Birds flew in the sky nearby.

Suddenly, a turtle dug out of the sand. David made pictures as more turtles came out. Ten, fifteen, twenty ... so many babies.

David heard a loud noise. He saw a bird. It flew down. It wanted to eat a turtle!

David ran closer. He wanted to help, but he did not want to get in the way. He was glad when the bird left.

The turtles swam into the sea. David still had his turtle drawings.

- c. A bird takes a baby turtle to the sea.

Finding Word Meanings

When you read a hard word, you can ask questions to figure out its **meaning**.

Read the example. Then ask the questions below:

You can grow **crops** such as onions, lettuce, and carrots in a garden.

- ▶ What clues can I find in the words around the new word?
- ▶ What do the pictures show about the word?
- ▶ What do I already know about the word or the topic?
- ▶ Does the meaning I find make sense in the sentence?

Finding the meanings of new words can help you understand what you read.

Made by Nature

What is a snow roller? It is made by wind. Wind **lifts** up a small piece of snow. It pushes the piece of snow along the ground.

The piece of snow rolls. More snow sticks to the rolling snow. The roll of snow gets bigger. It is a snow roller!

©LOETSCHER CHLAUS/Alamy

Snow rollers need room to grow.

The wind must be just right to make a big snow roller. A **weak** wind cannot push a lot of snow. A very strong wind breaks the snow roller into pieces. It falls apart.

The temperature must be just right, too. It cannot be too cold. Then snow gets dry. It does not stick together to make a snow roller.

©NPS/Yellowstone/Diane Renkin

Snow rollers often go down hills in groups.

Different Shapes and Sizes

Snow rollers can be different shapes.

Some snow rollers look like donuts.

©Tom Uhlman/Alamy

And some look like rolls of toilet paper.

©Miranda Granche via CC BY 2.0

Snow rollers can be different sizes. A weak wind cannot push a snow roller very far. So a weak wind makes small snow rollers. Some are the size of baseballs.

A stronger wind can push a snow roller far. So a strong wind makes bigger snow rollers. Some are as big as the tires on a car.

©Aaron Rigsby

This snow roller is medium in size.

Holes and No Holes

Some snow rollers have a hole in the middle. Why? The wind blows snow out of the roller. The wind makes the snow roller hollow.

Other snow rollers do not have a hole, because the wind did not blow through them. These snow rollers are solid in the middle.

A Rare Sight

People cannot make snow rollers. Only nature can make them. And the wind and the temperature must be just right.

Snow rollers do not happen often. They are a rare and wonderful sight.

©Dan/EyeEm

Maybe you will see a snow roller one day.

Question 1 (for p. 1 of passage)

What is the name for snow that is pushed into a ball by the wind?

- a. a snow grower
- b. a snow roller
- c. a snow sticker

Question 2 (for p. 2 of passage)

Which word helps you understand the word **temperature**?

- c. cold

Question 3 (for p. 3 of passage)

How do snow rollers look different from each other? Complete the sentence.

The pictures show that snow rollers are different _____.

- a. shapes
- b. donuts
- c. papers

Question 4 (for p. 4 of passage)

Which picture shows a snow roller made by a strong wind?

a. A big snow roller

b. A medium snow roller

c. A small snow roller

Question 5 (for p. 5 of passage)

Look at what the word **solid** means. What does the word **hollow** mean? Choose the correct meaning.

Word	Meaning
solid	without spaces or holes
hollow	?

- a. strong in the middle
- b. empty in the middle
- c. sticky in the middle

Question 6 (for p. 6 of passage)

What important facts did you learn about snow rollers? Complete the sentences.

To make a snow roller, the (1) _____ and the temperature must be just right. Snow rollers are (2) _____ because they do not happen often.

- 1.
 - a. roll
 - b. snow
 - c. wind
- 2.
 - a. hollow

 - c. big

Tiny Towers of Sand

by Kimberly
Feltz Taylor

© Joshua Nowicki

Some people live near a special lake. They found a surprise on the beach.

The sand was in different shapes. Some sand looked like little towers. These shapes stayed for one day. Then they were gone.

Strange towers showed up in St. Joseph.

The Shapes Appear

The sand shapes showed up in the winter.
They looked like art. It looked like someone had
cut or carved the small shapes out of rocks.
But this art was made of sand!

© Joshua Nowicki

The beach was full of sand shapes.

What made these shapes? The sand was wet. It got very cold outside.

The water in the sand turned to ice. The ice held up the shapes. They were made of frozen sand!

©Thomas Gill

This beach is made of frozen sand.

Later, it got warmer. Some of the ice in the sand thawed. The ice turned back to water. The sand got soft and loose.

The sand came free of the shapes. The wind took that sand away. But some of the ice stayed. Those shapes were still hard. They looked like art.

Blowing wind helped make these shapes.

The Shapes Disappear

It got warmer and warmer. The ice all turned to water. The sand all came free. The shapes fell. Then they were gone.

But the shapes could show up again. All you need is sand, cold, and wind!

©Joshua Nowicki

The shapes fell when the air got warm.

The House That Used to Walk

by
Alan
Davidson

©Puwadol Jaturawuthichai/Shutterstock

One day, Thomas Boylan found a fossil. He found it near his home in Wyoming. It looked like a huge bone. It was a dinosaur fossil. The fossil was hard like a rock.

Thomas kept the fossil. He looked for more. He kept those, too. Soon, Thomas had hundreds of dinosaur fossils.

Thomas found fossils in Como Bluff, Wyoming.

Thomas had a plan for these fossils. He would build a dinosaur **skeleton**. Thomas thought people would come to see it. They would buy gas at his gas station. Then Thomas would make more money.

Thomas kept finding fossils of bones for 17 years. His pile of bones got bigger and bigger.

©Yale Peabody Museum of Natural History

The fossils Thomas found were just like these.

An **expert** looked at the fossils. He gave Thomas bad news. The bones were from many dinosaurs. But there was not a complete set of bones for any one of them. Thomas could not build one whole dinosaur skeleton.

So Thomas made a new plan. He would build a house made of dinosaur bones.

Thomas built the house in 1932. He used 5,796 dinosaur fossils to make the walls. These fossils weighed about the same as 30 cars!

People were curious about the house. They came to visit. Those visitors told other people. More people came. More people paid for gas, too. Thomas made more money.

The house became a fossil museum.

Thomas called the house a fossil cabin.
One postcard called the house “The Strangest
Building in the World.”

Another card called it “The House That
Used to Walk.” The bones had walked long ago,
when the dinosaurs walked.

©University of Wyoming/Emmet D. Chisum Special Collection

Visitors could buy and send postcards like this.

Visitors cannot go inside “The House That Used to Walk” anymore. But the house is still standing. It is almost 100 years old.

Long ago, dinosaurs walked the earth for 165 million years. Will the house last that long? We’ll have to wait and see.

The house still stands in Wyoming.

Describing Events

An **event** is something that happens in a story. You can use **key details** to describe an event, or tell more about it.

Look at the example. Then ask the questions:

Piglet goes for a long bike ride with his mom. He wears his helmet and rides on the right. After a while Piglet gets terribly hungry. He and his mom go home and eat lunch. Piglet has his favorite—a peanut-butter-and-pickle pie.

- ▶ What happens first, next, or last?
- ▶ How important is this event?
- ▶ What details tell about the event?

Describing important events helps you make sense of a story. It can help you understand, remember, and retell the story.

The Strangest Nest

by Helena Nowicki

Louis rides his bike to the mailbox in less than a minute. He goes around the **block** in five minutes. Louis wants to ride even faster.

But today Louis found a pigeon in his bike basket.

“What are you doing? Shoo! Go away!” he said. The pigeon only blinked at him.

“I guess you’re not moving,” Louis said.

Then the pigeon stood up. Under it, Louis saw a nest! Two pigeon **hatchlings** were in it.

“A family! That’s too many birds for one bike,” Louis said. He tried to take the basket off. The pigeons didn’t like that. They made a lot of noise.

Louis asked his mom, “How long are those pigeons going to stay?”

“Maybe a few weeks,” Mom said. “The little hatchlings need to be ready to fly.”

“Ugh,” Louis said. “Can they ride with me?”

“Oh, no,” Mom laughed. “You ride too fast!”

“OK. I’ll wait for them to leave,” Louis said.

Louis visited the pigeon family all the time. “Can’t you hurry?” he asked. “I have to get moving again.” The birds blinked.

Louis watched the pigeons bring food to the nest. The babies tilted their heads back and opened their beaks. They gobbled food so fast!

“That’s cute,” Louis said. He smiled a little.

One day, Louis saw the little pigeons stand on the basket. “Look, Mom!” he called. “The little birds are trying to fly!”

Louis wanted to help. He cheered for the babies. “You can do it!” he said.

The baby pigeons flapped their wings. But they didn’t let go of the basket.

“Keep practicing!” Louis said. “That’s what I had to do when I learned to ride my bike.”

The pigeons wobbled and flapped again. Then they jumped and flew down to the grass.

“You can fly!” Louis cheered. The birds were out of the nest.

Now Louis was ready to ride again. He rode his bike faster than ever.

He got to his mailbox in 25 seconds. He made it around the block in four minutes. One minute less than before! And whenever he saw pigeons flying, he called out, “Let’s race!”

Question 1 (from p. 1 of passage)

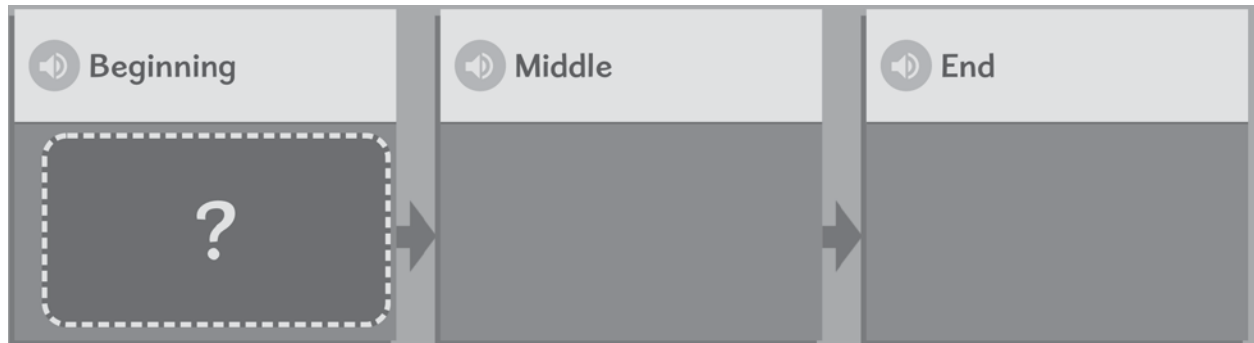

What does Louis like to do? Complete the sentence.

Louis likes to _____.

- a. look for birds

Question 7 (from p. 7 of passage)

Which event happens at the end of the story? Choose the event.

- a. Louis rides his bike again.
- b. Louis walks to the mailbox.
- c. Louis wins a race with the pigeons.

It was a boring night. Then I heard a “beep, beep” from my **walkie-talkie**. My best friend Finn said, “Come in, Abby. Give me the signal.”

I raced to the window. With my flashlight, I clicked on, off, on, off. Finn flashed back twice from across the street.

“I’m here,” I said into my walkie-talkie.

“Hurry!” Finn said. “An animal needs us.
Meet me outside!”

Finn and I love animals. We created an
animal rescue club. This was our first case!

I ran outside.

Finn beeped me again. “Abby, there’s an opossum here. Look.” He shined his flashlight.

I looked closely. I saw many eyes. One, two, three, FOUR pairs of glowing eyes.

“Finn, it’s a mama. She has three babies on her back,” I whispered. The babies hugged their mama tightly as they bounced along.

The opossums started to cross the street. Finn and I watched. Suddenly, the nighttime street got brighter and louder.

“Finn, there’s a car coming!” I grabbed my flashlight. We had a plan for this.

Finn called, “Ready for our first rescue?”

We shined our flashlights up and down the street. Then we used them to make a big, bright X in the dark. Our X was right over the opossums. The car stopped!

Finn and I watched the opossums walk safely across the street. “Hooray for the Animal Rescue Club!” I said.

Question 1 (from p. 1 of passage)

What is the first way Finn sends a message to Abby?

- a.
walkie-talkie

- b.
flashlight

- c.
cellphone

Question 2 (from p. 2 of passage)

What did Abby and Finn do to show they love animals?

- a. They started a group.
- b. They watched from a window.
- c. They took a walk outside.

Question 3 (from p. 2 of passage)

How do you know that Finn and Abby are just starting to help animals? Complete the sentence.

Abby says that this is their _____ case.

- a. boring
- b. first
- c. best

Question 4 (from p. 3 of passage)

What happens in this part of the story?

- a. Finn shows Abby a group of grown-up opossums.
- b. Finn shows Abby a mama opossum and her babies.
- c. Finn shows Abby two baby opossums.

Question 5 (from p. 3 of passage)

What does Abby see when Finn shines his flashlight?

- a. Abby sees the eyes.

- b. Abby sees the tail.

- c. Abby sees the teeth.

Question 6 (from p. 4 of passage)

What happens in this part of the story? Complete the sentence.

Abby and Finn worry that a _____ could hurt the opossums.

- a. car
- b. light
- c. road

Question 7 (from p. 5 of passage)

We shined our flashlights up and down the street. Then we used them to make a big, bright X in the dark. Our X was right over the opossums. The car stopped!

Finn and I watched the opossums walk safely across the street. "Hooray for the Animal Rescue Club!" I said.

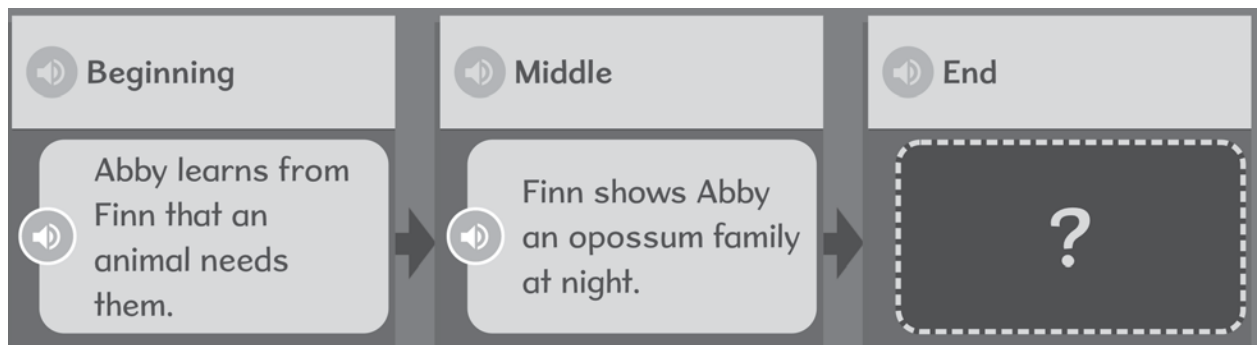

Read the underlined sentence. What do Abby and Finn find out?

- a. They learn that the opossums are in danger.
- b. They learn that their flashlights are broken.
- c. They learn that their rescue plan is working.

Question 8 (from p. 5 of passage)

Which major event happens at the end of the story? Choose the event.

- a. Abby uses her walkie-talkie to talk to Finn.
- b. Abby and Finn help the opossums cross the street.
- c. Finn tells Abby that the opossums need help.

Describing Connections

To **connect** means to fit together. Events and ideas in informational text can connect in different ways.

Here are two kinds of connections:

- ▶ Events follow each other in time order:

1. New leaves grow
in spring.

2. Flowers bloom
in summer.

- ▶ One event or idea causes another:

1. A lot of rain falls
at once.

2. Rivers rise
and flood.

Describing connections between events and ideas helps you understand and remember key details.

A man named William H. Reynolds made plans for a new park. He would build it near Luna Park.

Reynolds wanted his park to be better than Luna Park. He called his park Dreamland.

Building Dreamland

William Reynolds copied Luna Park's rides. But he made his rides bigger and better.

Luna Park had a boat ride. Reynolds made a bigger boat ride at Dreamland. Two boats raced down a steep ramp and into the ocean.

Reynolds copied the buildings in Luna Park, too. Luna Park had a tall tower in the park's center.

Dreamland had a taller tower. People could see the tower lights from miles away.

The Dreamland tower

Dreamland opened. It cost 15 cents to enter. People loved it! Huge crowds visited all summer. It was as popular as Luna Park.

The Roaring Fire

Dreamland was a fun place. It was popular for seven years. Then something terrible happened. Workers were using hot tar to fix a ride. A fire started. People think some hot tar spilled and started the fire.

The fire at Dreamland

Most of Dreamland was made of wood. It burned fast. Hundreds of firefighters came. But they could not save Dreamland. All the rides burned down. The tall tower **collapsed**. No one was killed. But Dreamland was destroyed.

Luna Park stayed in business for many more years. Then a big fire destroyed it, too.

Chicago Grows Quickly

Long ago, Chicago, Illinois, was a busy city. Many people lived there. Many people came to work there. The city grew quickly.

The people built many new buildings. The buildings were made of wood.

Chicago more than one hundred years ago

Fire in the Windy City

One night, a fire started. It happened in a barn. How did it start?

Some people say that a cow kicked over a lamp. Some people think that a milk thief did it. No one knows for sure how the fire started.

How a cow could kick over a lamp

It was windy that night. The wind blew the fire from building to building.

All the wood buildings caught fire. The fire burned for three days. Thousands of buildings were burned.

Helping the City

People wanted to help Chicago. Great builders came from all over. They used steel and clay. Steel and clay would not catch on fire.

People had other new ideas. The new buildings had bigger windows. They were taller, too. The first skyscrapers in the world were built in Chicago.

Maria was buying a pet. “I want a fancy animal,” she said.

Maria looked at colorful birds and fluffy rabbits. She saw exotic snakes and fancy cats.

“Oh, no!” said Maria. “The fancy pets cost a lot. I cannot afford them.”

Maria had only enough money for a frog.

The frog had big **bulging** eyes. It was small and slimy. It was gray and dull. Maria left the store, feeling sad.

That night, Maria wished for a pet that was fancy or exotic. A colorful pet would be better than a gray slimy one.

Maria walked back to the store. The frog was still the only pet she could afford. Maria decided to take it home.

“I will name him Slimy,” said Maria. “We will have fun.”

She did not mean it. The frog was not fancy. The frog was not fun. Maria was upset.

In the morning, Maria woke up hearing a song. “Who is singing?” she wondered.

It was the frog! Her little frog could sing!

All the kids ran to hear Maria’s frog. She changed his name to Grayson Thunderlungs Slimesong. She built him a stage.

G.T. Slimesong jumped and flipped and sang. He danced like a butterfly. People came from everywhere to see the famous frog.

Maria sold tickets. She was rich!

“Now I have a lot of money,” she said.

“I can buy any pet I want.”

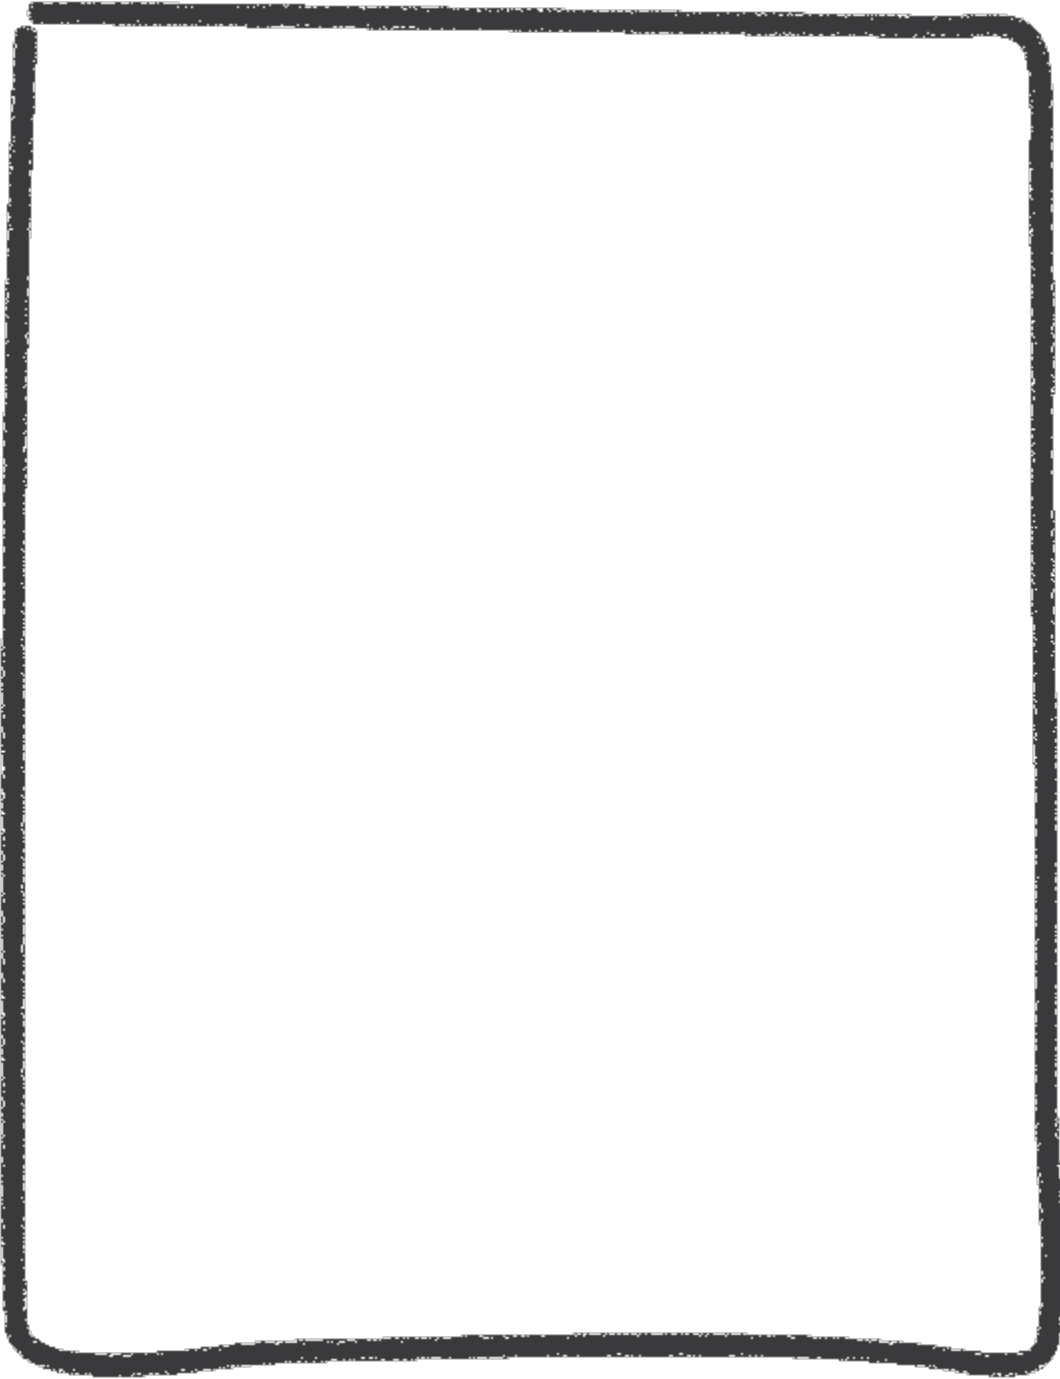

Maria walked to the pet store. “Maybe I will get a giraffe,” she said to her frog.

Then she stopped. “You can sing,” she said. “Your dancing is fancy. You are fun.”

Maria felt silly. “I do not want a giraffe,” she said. She kept her little gray frog.
